Independent Accountant's Review Report

Board of Directors and Management Pine Creek Canyon Domestic Water Improvement District

Report on Financial Statements

We have reviewed the accompanying financial statements of Pine Creek Canyon Domestic Water Improvement District (District), which comprise the statement of net position as of June 30, 2023, and the related statements of revenues, expenses, and changes in net position, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of District management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Change in Accounting Principle

As described in Note 1, the District implemented the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements, for the year ended June 30, 2023, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted by the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Report on Comparative Information

We have previously reviewed Pine Creek Canyon Domestic Water Improvement District's fiscal year 2021-22 financial statements, and our report dated November 2, 2022 concluded that we are not aware of any material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our conclusion on the financial statements is not affected by this missing information.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the Pine Creek Canyon Domestic Water Improvement District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2023, the District implemented the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs). This Statement increases the usefulness of the financial statements by requiring the recognition of certain assets and liabilities for SBITAs. This Statement also requires a government to disclose essential information about the arrangement. The District's analysis of SBITAs in effect at the beginning of the year resulted in no changes to beginning balances reported in the financial statements due to the implementation of this standard.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

Pine Creek Canyon Domestic Water Improvement District (PCCDWID), (the District) is a rural community water and wastewater district in Pine, Arizona, providing water for the Portal IV subdivision located in Pine, AZ. The District was established in 1996 under the authority of the Gila County Board of Supervisors. The District operates under the authority of Title 48 Chapter 6 of the Arizona Revised Statues (A.R.S.).

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. The District's financial statements are comprised of a single enterprise fund. There are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity.

B. Principles of Reporting

The District accounts for its operations using the Governmental Enterprise Fund Concept. The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the costs (expenses, including depreciation) of providing water and wastewater services to the users are financed through use charges.

Note 1 - Summary of Significant Accounting Policies

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Basis of accounting relates to the timing of the measurements made and determines when revenues and expenses are recognized in the accounts and reported in the financial statements. The financial statements of the District are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

The District distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's principal ongoing operations. The principal operating revenues of the District are water and wastewater fees, installation and establishment fees, and miscellaneous fees. Operating expenses for the District include administration expenses, Board of Director expenses, depreciation on capital assets, expenses related to wastewater operations, and expenses related to water operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Cash and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash in bank and cash and investments held by the County Treasurer. In addition, the District had cash held by a trustee for the debt service reserve. The related notes payable to the Water Infrastructure Finance Authority (WIFA) is described in Note 4.

A.R.S. allows the District to deposit certain cash with the County Treasurer. That cash is pooled for investment purposes. All investments are stated at fair value.

E. Investment Income

Investment income is composed of interest. Investment income is included in nonoperating revenues.

Note 1 - Summary of Significant Accounting Policies

F. Property Tax Calendar

Property tax levies are calculated by applying tax rates against either the primary assessed valuation or the secondary assessed valuation. Primary and secondary valuation categories are composed of the exact same properties. However, the primary category limits the increase in property values to 10 percent from the previous year, while there is no limit to the increase in property values for secondary valuation. Override and debt service tax rates are applied to the secondary assessed valuation and all other tax rates are applied to the primary assessed valuation. The County levies real property taxes on or before the third Monday in August, which become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. The billings are considered past due after these dates, at which time the applicable property is subject to penalties and interest.

The County also levies various personal property taxes during the year, which are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days thereafter.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

G. Inventory

All inventories are valued at cost using the first-in-first out (FIFO) method. Inventories consist of expendable supplies held for consumption. Inventories are recorded as expenses when consumed on the financial statements.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements. Prepaid items are recorded as expenses when consumed.

Note 1 - Summary of Significant Accounting Policies

I. Capital Assets

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$500 and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Equipment	5 years
Water System	5 – 30 years
Sewer System	10 – 30 years

J. Long-term Obligations

In the financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position.

K. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

L. Net Position Flow Assumption

In the financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

Note 2 - Cash and Investments

A.R.S. authorized the District to invest public monies in the State Treasurer's local government investment pools, the County Treasurer's investment pool, obligations of the U.S. Government and its agencies, obligations of the State and certain local government subdivisions, interest-bearing savings accounts, and certificates of deposit, collateralized repurchase agreements, certain obligations of U.S. corporations, and certain other securities. The statutes do not include any requirements for credit risk, custodial credit risk, concentration of credit risk, interest rate risk, or foreign currency risk for the District's investments.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$82,290 and the bank balance was \$81,242. Additionally, cash held in trust with the Water Infrastructure Finance Authority of Arizona at year end was \$56,997.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments.

At year end, the District's investments consisted of the following.

Average Maturities Fair Value
County Treasurer's investment pool 0.92 years \$350,201

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Note 2 - Cash and Investments

Credit Risk. The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk - Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

Note 3 - Capital Assets

A summary of capital asset activity for the current fiscal year follows:

Governmental Activities	Beginning Balance	Increase	Decrease	Ending Balance
Capital assets, not being depreciated:				
Construction in progress	\$ 85,663	27,492	\$ 113,155	\$
Total capital assets, not being depreciated	85,663	27,492	113,155

Total intangible right-to-use assets, net		64,623		64,623
Governmental activities capital assets, net	\$ 1,256,802	\$ 122,822	\$ 113,155	\$ 1,266,469

Note 4 - Restricted Cash

The District is required to fund monthly a debt service reserve to the Water Infrastructure Finance Authority (WIFA) as follows:

Monthly Funding	\$ 884
Meter/Pump Sta Upgrade	 20
WIFA PRV	260
WIFA Extra	219
WIFA Well	355
WIFA Pond	\$ 30

The debt service reserve fund requirements were met or will be met respectively, February 1, 2015 (\$1,806); February 1, 2015 (\$21,286); September 1, 2015 (\$13,148), March 1, 2023 (\$15,584), and September 1, 2027 (\$1,171). These funds will be used in the event the District is unable to make future required payments. The District's debt service reserve deposits held by WIFA totaled \$56,997 for the year ended June 30, 2023.

The District is required to build and maintain a repair and replacement fund as follows:

WIFA Pond	\$ 361
WIFA Well	4,257
WIFA Extra	2,630
WIFA PRV	3,117
Meter/Pump Sta Upgrade	234
Annual Funding	\$ 10,599

The WIFA repair and replacement reserve funds will be funded throughout the life of the loan. These funds will be used to pay for any major repairs or replacements of infrastructure funded by the WIFA loans during the life of the loans.

Any unused amounts remaining in the replacement reserves at the end of each loan can be utilized for any purpose, with the loans maturing by September 2029, August 2029, March 2030, September 2037, and March 2037. Repair and replacement funds being held by the District as Cash in Bank totaled \$59,981 for the fiscal year ended June 30, 2023.

Note 5 - Revolving Line of Credit

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of property tax revenues. At year end, the District had \$100,000 in unused line of credit.

Note 6 - Debt Obligations

The District's debt consists of the following:

	2023
Note payable WIFA Deep Well/Generator	\$ 625,000
Forgiveness of debt	(312,500)
Principal reduction	(193,989)
Total	\$ 118,511

The \$625,000 note is unsecured with final payment due August 1, 2029. The term of the note is 20 years at 3.053 percent. This loan is stimulus funding under the American Recovery & Reinvestment Act of 2009. Certain debt was forgiven at completion of project.

	2023			
Note payable WIFA Pond Drainage Control	\$	90,000		
Forgiveness of debt		(63,000)		
Principal reduction		(17,007)		
Total	\$	9,993		

The \$90,000 note is unsecured with final payment due August 1, 2029. The term of the note is 20 years at 2.849 percent. This loan is stimulus funding under the American Recovery & Reinvestment Act of 2009. Certain debt was forgiven at completion of project.

	2023
Note payable WIFA Deep Well Extra	\$ 200,000
Principal reduction	(119,938)
Total	\$ 80,062

The \$200,000 note is unsecured with final payment due March 1, 2030. The term of the note is 20 years at 2.653 percent.

	2023
Note payable WIFA PRV	\$ 249,905
Principal reduction	(57,749)
Total	\$ 192,156

The \$249,905 note is unsecured with final payment due September 1, 2037. The term of the note is 20 years at 2.064 percent.

Note 6 - Debt Obligations

Nete and I Marie and I	2023			
Note payable WIFA-Meter/Pump Sta Upgrade Forgiveness of debt	\$	100,000		
		(85,000)		
Principal reduction		(687)		
Total	_\$_	14,313		

The \$100,000 note is unsecured with final payment due March 1, 2037. The term of the note is 15 years at 1.740 percent.

Annual debt service requirements to maturity on notes payable at year end are summarized as follows.

Year ending June 30:		F	Principal		nterest nd Fees
	2024	\$	\$ 43,929		9,574
	2025		45,108		8,411
	2026		46,319		7,216
	2027		47,564		5,987
	2028		48,843		4,725
	2029-33		116,968		11,566
	2034-38		66,304		3,044
Total		\$	415,035	\$	50,523

Note 7 - Leases Payable

The District has acquired office space under the provisions of a contract classified as a lease. The related obligation under the lease agreement has been recorded at the present value of its future minimum lease payments as of the inception date. Revenues from the District are used to pay the lease obligation. Amortization of right-to-use assets recorded under leases is included with depreciation expense. After five years, the District has the first right of refusal to extend the lease at the then prevailing rate for an additional five years.

Note 7 – Leases Payable

The net present value and future minimum lease payments at year end were as follows:

		G	overnment	al Activities			
Year ending June 30:		Р	rincipal	Interest			
	2024	\$	4,718	\$	3,118		
	2025		4,959		2,877		
	2026		5,522		2,620		
	2027		6,121		2,327		
	2028		6,435		2,013		
	2029-33		36,758		4,779		
Total		\$	64,513	\$	17,734		

The right-to-use assets recorded under leases that meet the District's capitalization threshold are as follows:

	Governmental Activities			
Asset:				
Leased buildings	\$	65,166		
Less: Accumulated amortization		543		
Total	\$	64,623		

Note 8 - Changes in Long-Term Liabilities

Long-term liability activity for the current fiscal year was as follows:

	Additions		Reductions		Ending Balance		Due Within One Year	
			2					
\$ 454,654	\$		\$	39,619	\$	415,035	Ś	43,929

Note 9 - Contributions

The District's net position includes contributions by Elk Rim 2018 and contributions by Portal IV 1996 in the amounts of \$137,000 and \$421,139, respectively. These represent developer contributions of water and sewer assets that are reflected in the depreciable assets of the District. They do not represent restricted amounts.

Note 10 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; and natural disasters. The District carries commercial insurance for all risks of loss, including property and liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.
