### Independent Accountant's Review Report

Board of Directors and Management
Pine Creek Canyon Domestic Water Improvement District

### **Report on Financial Statements**

We have reviewed the accompanying financial statements of Pine Creek Canyon Domestic Water Improvement District (District), which comprise the statement of net position as of June 30, 2024, and the related statements of revenues, expenses, and changes in net position, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of District management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted by the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Pine Creek Canyon Domestic Water Improvement District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

### Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

### Report on Comparative Information

We have previously reviewed Pine Creek Canyon Domestic Water Improvement District's fiscal year 2022-23 financial statements, and our report dated September 7, 2023, concluded that we are not aware of any material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our conclusion on the financial statements is not affected by this missing information.

### Note 1 - Summary of Significant Accounting Policies

The financial statements of the Pine Creek Canyon Domestic Water Improvement District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

### A. Reporting Entity

Pine Creek Canyon Domestic Water Improvement District (PCCDWID), (the District) is a rural community water and wastewater district in Pine, Arizona, providing water for the Portal IV subdivision located in Pine, AZ. The District was established in 1996 under the authority of the Gila County Board of Supervisors. The District operates under the authority of Title 48 Chapter 6 of the Arizona Revised Statues (A.R.S.).

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. The District's financial statements are comprised of a single enterprise fund. There are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity.

### B. Principles of Reporting

The District accounts for its operations using the Governmental Enterprise Fund Concept. The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the costs (expenses, including depreciation) of providing water and wastewater services to the users are financed through use charges.

### Note 1 - Summary of Significant Accounting Policies

### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Basis of accounting relates to the timing of the measurements made and determines when revenues and expenses are recognized in the accounts and reported in the financial statements. The financial statements of the District are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

The District distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's principal ongoing operations. The principal operating revenues of the District are water and wastewater fees, installation and establishment fees, and miscellaneous fees. Operating expenses for the District include administration expenses, Board of Director expenses, depreciation on capital assets, expenses related to wastewater operations, and expenses related to water operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### D. Cash and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash in bank and cash and investments held by the County Treasurer. In addition, the District had cash held by a trustee for the debt service reserve. The related notes payable to the Water Infrastructure Finance Authority (WIFA) is described in Note 4.

A.R.S. allows the District to deposit certain cash with the County Treasurer. That cash is pooled for investment purposes. All investments are stated at fair value.

### E. Investment Income

Investment income is composed of interest. Investment income is included in nonoperating revenues.

### Note 1 - Summary of Significant Accounting Policies

### F. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

### G. Inventory

All inventories are valued at cost using the first-in-first out (FIFO) method. Inventories consist of expendable supplies held for consumption. Inventories are recorded as expenses when consumed on the financial statements.

### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements. Prepaid items are recorded as expenses when consumed.

### Capital Assets

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$500 and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

### Note 1 - Summary of Significant Accounting Policies

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Equipment 5 years Water System 5-30 years Sewer System 10-30 years

### J. Long-term Obligations

In the financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position.

### K. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

### L. Net Position Flow Assumption

In the financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available. This is true except for restricted amounts required by WIFA for replacement/repair reserves and debt service reserves. The District maintains these restricted funds as contingency funds.

### Note 2 - Cash and Investments

A.R.S. authorized the District to invest public monies in the State Treasurer's local government investment pools, the County Treasurer's investment pool, obligations of the U.S. Government and its agencies, obligations of the State and certain local government subdivisions, interest-bearing savings accounts, and certificates of deposit, collateralized repurchase agreements, certain obligations of U.S. corporations, and certain other securities. The statutes do not include any requirements for credit risk, custodial credit risk, concentration of credit risk, interest rate risk, or foreign currency risk for the District's investments.

### Note 2 - Cash and Investments

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$95,963 and the bank balance was \$95,051. Additionally, cash held in trust with the Water Infrastructure Finance Authority of Arizona at year end was \$59,500.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments.

At year end, the District's investments consisted of the following.

	Average Maturities Fair V	
County Treasurer's investment pool	0.43 years	\$ 343,486

*Interest Rate Risk*. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk - Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

### Note 3 - Capital Assets

A summary of capital asset activity for the current fiscal year follows:

Governmental Activities	Beginning Balance	Increase	Decrease	Ending Balance
Capital assets, not being depreciated:				
Construction in progress	\$	\$ 43,392	\$	\$ 43,392
Total capital assets, not being depreciated		43,392		43,392
Capital assets, being depreciated:				
Office furniture and equipment	3,437	1,450	657	4,230
Sewer system	381,205	6,310		387,515
Water system	1,833,726			1,833,726
Total capital assets being depreciated	2,218,368	7,760	657	2,225,471
Less accumulated depreciation for:				
Office furniture and equipment	(1,169)	(763)	(649)	(1,283)
Sewer system	(223,296)	(19,005)		(242,301)
Water system	(792,057)	(82,334)		(874,391)
Total accumulated depreciation	(1,016,522)	(102,102)	(649)	(1,117,975)
Total capital assets, being depreciated, net	1,201,846	(94,342)	8	1,107,496
Intangible right-to-use assets:				
Leased buildings and improvements	65,166			65,166
Less accumulated amortization	(543)	(6,516)		(7,059)
Total intangible right-to-use assets, net	64,623	(6,516)		58,107
Governmental activities capital assets, net	\$ 1,266,469	\$ (57,466)	\$ 8	\$ 1,208,995

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to various capital projects for the construction of the waste water controls upgrade. At year end the District had spent \$43,392 on the projects and had estimated remaining contractual commitments of \$126,500. These projects are being funded with WIFA loan proceeds

### Note 4 - Restricted Cash

The District is required to fund a debt service reserve to the Water Infrastructure Finance Authority (WIFA) for the Meter/Pump Sta Upgrade. The monthly payment is \$20.

### Note 4 - Restricted Cash

The debt service reserve fund requirements were met or will be met respectively, for the following projects:

WIFA Pond	February 1, 2015	\$ 1,806
WIFA Well	February 1, 2015	21,286
WIFA Extra	September 1, 2015	13,148
WIFA PRV	March 1, 2023	15,584
Meter/Pump Sta Upgrade	September 1, 2027	1,171

These funds will be used in the event the District is unable to make future required payments. The District's debt service reserve deposits held by WIFA totaled \$59,500 for the year ended June 30, 2024.

The District is required to build and maintain a repair and replacement fund as follows:

WIFA Pond	\$ 361
WIFA Well	4,257
WIFA Extra	2,630
WIFA PRV	3,117
Meter/Pump Sta Upgrade	
beginning October 1, 2027	234
Annual Funding	\$ 10,599

The WIFA repair and replacement reserve funds will be funded throughout the life of the loan. These funds will be used to pay for any major repairs or replacements of infrastructure funded by the WIFA loans during the life of the loans.

Any unused amounts remaining in the replacement reserves at the end of each loan can be utilized for any purpose, with the loans maturing by September 2029, August 2029, March 2030, September 2037, and March 2037. Repair and replacement funds being held by the District as Cash in Bank totaled \$70,043 for the fiscal year ended June 30, 2024.

### Note 5 – Revolving Line of Credit

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of property tax revenues. At year end, the District had \$85,000 in unused line of credit.

### Note 6 - Debt Obligations

The District's debt consists of the following:

	2024
Note payable WIFA Deep Well/Generator	\$ 625,000
Forgiveness of debt	(312,500)
Principal reduction	(211,906)
Total	\$ 100,594

The \$625,000 note is secured with final payment due August 1, 2029. The term of the note is 20 years at 3.053 percent. This loan is stimulus funding under the American Recovery & Reinvestment Act of 2009. Certain debt was forgiven at completion of project.

		2024	
Note payable WIFA Pond Drainage Control	\$	90,000	
Forgiveness of debt		(63,000)	
Principal reduction		(18,516)	
Total	\$	8,484	

The \$90,000 note is secured with final payment due August 1, 2029. The term of the note is 20 years at 2.849 percent. This loan is stimulus funding under the American Recovery & Reinvestment Act of 2009. Certain debt was forgiven at completion of project.

	2024				
Note payable WIFA Deep Well Extra	\$	200,000			
Principal reduction		(131,097)			
Total	\$	68,903			

The \$200,000 note is secured with final payment due March 1, 2030. The term of the note is 20 years at 2.653 percent.

	2024			
Note payable WIFA PRV	\$	249,905		
Principal reduction		(69,475)		
Total	\$	180,430		

### Note 6 - Debt Obligations

The \$249,905 note is secured with final payment due September 1, 2037. The term of the note is 20 years at 2.064 percent.

		2024		
Note payable WIFA-Meter/Pump Sta Upgrade	\$	100,000		
Forgiveness of debt		(85,000)		
Principal reduction		(1,616)		
Total	\$	13,384		

The \$100,000 note is secured with final payment due March 1, 2037. The term of the note is 15 years at 1.740 percent.

Annual debt service requirements to maturity on notes payable at year end are summarized as follows.

Year ending June 30:		F	Principal	Interest and Fees			
	2025	\$	\$ 45,108		\$ 45,108		8,411
	2026		46,319		7,216		
	2027		47,564		5,987		
	2028		51,740		4,725		
	2029		45,951		3,436		
	2030-34		84,352		9,374		
	2035-38		50,759		1,801		
Total		\$	371,793	\$	40,950		

### Note 7 - Leases Payable

The District has acquired office space under the provisions of a contract classified as a lease. The related obligation under the lease agreement has been recorded at the present value of its future minimum lease payments as of the inception date. Revenues from the District are used to pay the lease obligation. Amortization of right-to-use assets recorded under leases is included with amortization expense. After five years, the District has the first right of refusal to extend the lease at the then prevailing rate for an additional five years.

### Note 7 - Leases Payable

The net present value and future minimum lease payments at year end were as follows:

		Governmental Activities				
Year ending June 30:		Principal Interest			nterest	
	2025	\$	4,959	\$	2,877	
	2026		5,522		2,620	
	2027		6,121		2,327	
	2028		6,435		2,013	
	2029		6,764		1,684	
	2030-33		29,994		3,095	
Total		\$	59,795	\$	14,616	

The right-to-use assets recorded under leases that meet the District's capitalization threshold are as follows:

	Governmental Activities			
Asset:				
Leased buildings	\$	65,166		
Less: Accumulated amortization		7,059		
Total	\$	58,107		

### Note 8 – Changes in Long-Term Liabilities

Long-term liability activity for the current fiscal year was as follows:

Governmental activities:	eginning Balance	Additions	Red	ductions	_	Ending Balance	ue Within One Year
Notes payable Leases payable Governmental activity long-term	\$ 415,035 64,513	\$	\$	43,241 4,718	\$	371,794 59,795	\$ 45,108 4,959
liabilities	\$ 479,548	\$	\$	47,959	\$	431,589	\$ 50,067

### Note 9 - Contributions

The District's net position includes contributions by Elk Rim 2018 and contributions by Portal IV 1996 in the amounts of \$137,000 and \$421,139, respectively. These represent developer contributions of water and sewer assets that are reflected in the depreciable assets of the District. They do not represent restricted amounts.

### Note 10 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; and natural disasters. The District carries commercial insurance for all risks of loss, including property and liability. The District has not had any claims resulting from these risks in any of the past three years.

### Note 11 - Subsequent Event

The District entered into a loan agreement with WIFA to finance the controls upgrade at the wastewater treatment plant. The original loan amount is \$123,000 with \$91,500 subject to forgiveness. The loan is to be repaid over 20 years with a combined interest and fee rate of 2.872%. The District submitted for its first disbursement from the loan on August 15, 2024 and received funds in the amount of \$42,656 on September 19, 2024.
